Moawiah Omar Dwairi

Junior Flutter Developer

A Software Engineer with a positive nature and I have a love of learning and a work ethic. My experience in Luminous has enhanced to me many skills like dealing with the Dart programming language, the ability to deal with databases (Firebase, API), and the ability to design interfaces. Currently, I am seeking to work in the mobile application development sector using flutter with a company have a high reputation that contains the talents that I have and work to develop them further.

Experience

2023	Freelancer
